## **Positive Discipline Philosophy**

1. All behavior has a purpose to it and that purpose is to achieve belonging and significance.
2. When we are behaving effectively, we find belonging and significance in positive ways; when we are behaving ineffectively, we find belonging and significance in negative ways.
3. Our behavior results from our beliefs about ourselves, others and the world. These beliefs come from our perceptions, which in turn come from our experiences.
4. The key to changing behavior, then, is to provide the student with different experiences from those that resulted in his/her current behavior.
